The Jane Sullivan Choral Resource Library

A Premier Destination for Choral Musicians

The **Jane Sullivan Choral Resource Library**, a program of The William Baker Choral Foundation, is a unique and expanding resource for conductors, choral educators, and institutions. With thousands of choral octavos, major works, reference scores, and linked recordings, the library provides affordable access to an extraordinary collection of repertoire for performance, study, and research.

Members enjoy year-round access to an extensive catalog of octavos by annual subscription and may rent major works and orchestral scores for a modest fee. Library visitors can also explore a wealth of recordings and research materials, with plans underway for a dedicated reading room supporting scholarship in conducting, choral pedagogy, and music history.

Founded through the generosity of Jane G. Sullivan and supported by donors across the country, the library is committed to **preservation, access, and service**. Our mission includes support for underfunded and outreach-focused organizations through reduced fees and membership grants by application.

Located at the Choral Foundation Center in Roeland Park, Kansas, the Jane Sullivan Choral Resource Library welcomes you to join us in sustaining the great tradition of choral music.
